

## Reception conditions at the hut related to health standards

---

Because of the health standards in force to respond to the epidemic, the conditions of reception of mountain huts are adapted. Each one proposes measures validated by the town hall and registered at the prefecture. The measures put in place and the elements below are likely to evolve according to information from the government.

In order to prepare your arrival in the best possible conditions, here is a short memo of the main information to be taken into consideration before your arrival. Do not hesitate to call us if you have any questions.

### Memo reception to Plan Glacier mountain hut :

- **Reservation is mandatory** for overnight stays.
- The **capacity** for overnight stays is reduced to **7 people**. However, if the refuge is exclusively occupied by a group made up of **people from the same family unit**, we can accommodate up to **14 people**.
- It is no longer possible to provide blankets. You will therefore have to assemble your **sleeping bag**. Please also be aware that we are not yet sure if we can provide pillows.
- Ideally, you should also bring your own **slippers**.
- Bring some **warm clothes** as it can get chilly in the evening and we will dine preferably on the terrace, for health risks but also for the sensational sunsets!
- Bring with you a **mask** and your **hydro-alcoholic solution**.
- An **Individual Commitment Charter** has been issued by the government for all clients coming at nights. It must be signed and returned to us before your arrival (downloadable from the Plan Glacier website). We will also ask you to fill out a traceability book with your contact details on site.

We are aware of the constraints that these rules may represent for you. We hope that they will not dampen your enthusiasm for visiting us: *the warm welcome and the beauty of the site will no doubt make you soon forget these small inconveniences!*

See you soon at Plan Glacier :)

**Refuge de Plan Glacier**
