

a Wine affair

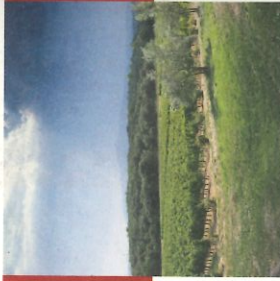

Discover the micro-wineries of Uzès and the nearby Cévennes, one of the most beautiful and rural regions in the south of France. Here, where 'terroir' has been nurtured for centuries, join me and meet a new generation of young winemakers who have blended innovation and ancient tradition to make wines that you've never tasted before!

I will introduce you to producers whose families have tended their vineyards for centuries and who are passionate about their wines. My relationship with them is personal: I know them intimately because I work with them throughout the year in the harvesting and crafting of their vines and wines.
