

CAPSULA — BIO

CAPSULA is a heavy kraut psychedelic power trio originally from Buenos Aires, now based in Bilbao, Spain. Known for their raw, high-energy live shows, the band delivers an intense blend of heavy kraut, garage rock and cosmic psychedelia driven by attitude, volume and sonic impact.

With a career spanning over a decade, CAPSULA have built a strong international presence, performing at festivals such as Primavera Sound, SXSW / Austin Psych Fest and Rock al Parque, and sharing stages with artists like Iggy Pop, Pearl Jam and Os Mutantes.

Their sound has evolved through a series of studio and live releases, moving between direct, high-impact songs and more expansive, hypnotic passages, while maintaining a strong analog identity. They have worked with producers such as Tony Visconti (David Bowie, T. Rex), John Agnello (Dinosaur Jr.) and Ivan Julian (Richard Hell & The Voidoids), and have been featured in international media including Rolling Stone, NPR and KEXP.

In 2026, CAPSULA recorded new material in London, capturing a heavier and more expansive direction, with a deeper focus on repetition, atmosphere and dynamic build while maintaining their signature analog warmth and high-voltage energy.
