LES P'TITS FLAMBEAUX

Châtel is proud to participate in this national charity event for children.

The aim is to introduce more children to the mountains in winter. Châtel is organising a torchlit descent with the ESF ski instructors, open to the public. FAMILY

Families have always been a priority in Châtel. The village has retained its traditional values whilst developing into a popular resort: its unique character, sense of welcome, plethora of activities, events and leisure activities, gastronomy and local traditions enable both children and adults to slow down and recharge their batteries in the mountains.

The weekly activity programme has sixty events and leisure activities. There is an orientation course in the village, an ice rink, the Forme d'O water activity park, spas, The Old Customs house (a mountain contraband information centre), heritage visits, the little train taking visitors through the village and surrounding hamlets, the C l'Aventure (large indoor play area for children from 2-12 yrs.), a carousel for little children, Abondance cheese-making demonstrations, library, Belalp Escape game, cinema, age-specific children's workshops and children's shows during the school holidays, sledging areas, mountain biking on snow, sled-dog activities, snowshoe outings (guided or not), concerts, street entertainers ...

NEW: HAVING OPENED THIS SUMMER, THE ZOÉTIM KID'AVENTURE, INDOOR PLAY AREA WILL OPEN FOR ITS FIRST WINTER SEASON.

There are two play areas; one with modules for children from 1-2 years and another with modules for children from 3-12 years ensuring fun and games for children of all ages.

There is also a snack bar, pancakes, ice creams and drinks on site, for a well-deserved pause. Birthday parties can be organised with advanced reservation.

THE COULEUR MENTHE À L'EAU BOUTIQUE HAS MOVED...

The Couleur Menthe à l'eau boutique has new address in the village centre, route du Linga.

In addition to the stylish decoration, eco-responsible accessories, French creations, a haberdashery stocking everything required for sewing, knitting, embroidery, etc., a tea room (8 places) with homemade pastries now completes the offer of this concept store.

And... 2-hour sewing machine workshops are now on offer where participants can sew their own articles: t-towel, basket, tote-bag, pencil case, snood...

Minimum age: 6 years, reservation required.

AGRICULTURE AND TOURISM

During the winter, farmers and their herds of cattle remain in their village farms until going up to the summer pastures in the spring. Despite the shortened hours of daylight, the work remains intense: milking twice a day (morning and evening), making and fermenting the cheese, pressing the cheese and the daily wiping of the cheese wheels already maturing in the cellars - for a minimum of 100 days. The cattle must also be cared for; fed and watered. A typical day begins at 6am and finishes around 8pm, all in addition to spending time with the family and selling cheese from the farm.

8

Abondance cheese (AOP), which the farmers make, is very versatile. One delicious dish made from the cheese is Berthoud, STG (Guaranteed traditional speciality).

Berthoud is eaten with local charcuterie, potatoes and green salad making a satisfying meal. It is on the menu at numerous restaurants and hotel-restaurants in the village, ski area and along the walking or snow-shoe tracks.

Farming, traditionally an important activity in Châtel and the Abondance valley (with the Pays d'Art et d'Histoire label), is also important for tourism. Its values, traditions, know-how and gastronomy, all have an important place in local tourism, which has been sympathetically developed on a human scale. The sense of welcome remains intact.

For the last 2 years, the Cave d'Azélie, in the village centre, has shared the secrets of Abondance cheese-making. Every Thursday morning from 9am to 10am they offer a visit to their maturing cellars followed by an Abondance cheese tasting.

Reservation required at Châtel Tourisme until Wednesday at 6pm. Price: €2.

« PAYS D'ART ET D'HISTOIRE » LABEL

In 2003, the Abondance valley obtained the "Pays d'art et d'histoire" label. In August 2019 an extension of the label was validated to cover all the communes in the Evian-vallée d'Abondance area. The promotion of local heritage preserved for the public to enjoy is due to the work of local guides and experts.

In Châtel, various sites are recognised in the accreditation:

- **The Old Customs House**, mountain contraband information centre. The centre can be visited with or without a guide. The guides, from the cultural service of Châtel town hall, provide commentary and information. There are also family and children's games, role-play, and group activities... The temporary exhibition entitled "Everything to declare!... in the customs office at the smuggling and contraband museum...".
- **The Villapeyron sawmill**, built in the 20s.
- **Oratories**, 20 in total.
- **The Plaine Dranse chapel**, in the heart of the mountain pastures in summer and surrounded by snow in winter.
- The neo-gothic **Saint-Laurent church** built in 1908.
- **Traditional mountain chalets** of typical regional farm architecture built of stone and wood with two sloping roof panels and carved wooden balconies, some of which are over 100 years old.
- **The Essert chapel**, built in 1784 to commemorate the lives spared in the hamlet following a terrible landslide.
- **The Vannes chapel**, located on the Pas de Morgins road since 1630, very modest when built but enlarged in 1886.

RANDO PARC

Like hiking enthusiasts in summer, who take to the trails as soon as the snow has melted, ski-tourers wait impatiently for the first quality mantle of snow, and head off on seal skins to explore the village, Abondance valley, neighbouring Switzerland, and wider region. And there is plenty to discover...

For some, the discipline is second nature, for others wanting to try this new activity (an alternative to snowshoes), it is a challenging skill to learn.

For them, there are 4 defined circuits of varying difficulty, close to the ski area, where beginners can learn and perfect this new technique.

This year, a 5th trail, on the blue « L'itinéraire » run between the Combes and Cornebois chair lifts in the Linga - Pré la Joux - Plaine Dranse sector will be marked up with signposts giving an additional option.
