"My week with Julie was amazing. I am a serious comparison shopper and have tried all kinds of classes/tutors/immersion programs, and this was by far the best experience.

We had natural conversations, and some times, used games to work on specific skills. As we spoke, Julie took notes for me (yes SHE's the one taking notes), so my mistakes/quirks were properly and thoroughly noted. This was a new thing in my French learning experience and it saved so much time, so I can focus on learning. By day two, I was forgetting English."
