Language Lessons

During the morning, we offer English and French lessons based on the programs designed for the University of Cambridge and Alliance Française examinations.

All of our teachers are qualified and experienced in teaching young people; the teachers are all native speakers. Their motivation is behind the specific character of our program and guarantees its success.
We want our lessons to be lively and different from typical school lessons. The language classes are limited to a maximum of eight participants per class. They are set up based on the level of the children, allowing greater participation and improvement.

We focus on conversation and gaining confidence.

Our aim is to teach languages to children
so they can progress and enrich their vocabulary while enjoying learning.
Lessons are based on the direct method and require the active participation of the student. Teachers work exclusively in their native language.

During the lessons, to use their linguistic knowledge, the campers produce a play assisted by the teachers and counselors. Each child can give their best performance by having fun.

Mission and Educational Objectives

International Language Camps is a European camp for children and teens from 7 to 17 years old from all around the world.

Children have the opportunity to develop their linguistic skills, discover new activities and learn about other cultures. Our linguistic camps not only feature foreign language study, but also encourage participants to discover new cultures, make new friends from all over the world, invest in themselves within an international community, and explore their talents. Everything is in place to install a climate of confidence, and we encourage our campers to be active in their own learning, creating the desire to continue to learn and to communicate.

We use ‘multiple intelligences’ in our teaching methods.

One of JD’s missions is to help our campers discover their inner strengths and use their resources to their advantage. They make tremendous strides in self-confidence, and flourish in everything that they try.

Supervision and safety

Supervision

Our team members are selected for their experience with children, for their age and their training. They are all bilingual.
The staff/child ratio is above the current requirement by the French government. We have one adult for six children maximum.
They are enthusiastic and capable of motivating and adapting to the children for whom they are responsible. They accompany the children during each sports activity or excursion and act as models and guides for the campers.
Natural leadership, organizational skills, good humor and an in-depth knowledge of the needs of our groups create a good team; many of the counselors have been returning for several years. Our director, the language teachers, and the counselors undoubtedly represent the principal factors in ensuring an experience that the children will remember for a long time to come.

Our team is experienced, qualified, and competent and entirely dedicated to the personal development of the children.

Safety and security

Security is an essential part of our camps: the children are supervised 24 hours a day.

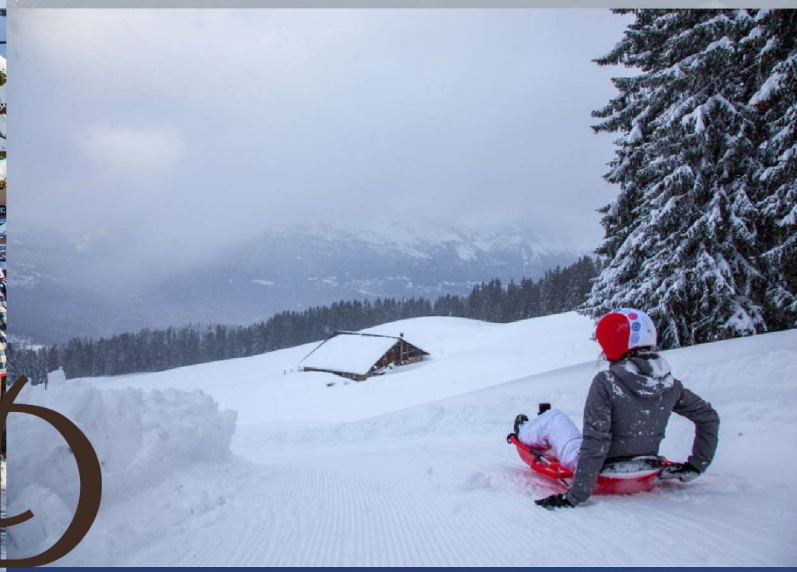
Megève provides a peaceful place and a safe environment.

All the service providers are qualified in their relevant activities (mountain guide, ski instructor…). Our responsibility is very important to us and we perfectly understand the concerns of each parent when their child is away from home.

We take every precaution to ensure the health and safety of our participants. We will, of course, make sure the children take their medicines as necessary.

Safety and security is an essential part of our camps.

Accommodations



Words to the World

JEUNES DIPLOMATES

The setting

Our summer and winter camps are located in Megève, a French ski resort with an international reputation.

Megève is located in the heart of the Savoy Alps, close to Switzerland and Italy. Located in a preserved mountain environment at 1113 meters, **Megève is a safe and secure village with a delicate charm far from the city life**. Megève combines the charm and elegance of a winter and summer sports resort with a real Savoy village, rich in its history and its people. In the summer, Megève invites you to enjoy walks, mountain biking and horse riding, along with water and air sports.

Perfectly equipped with a sports infrastructure, Megève offers a wide choice of activities linked to the mountains and comes to life in the summer with a large classical music festival and a jazz competition which everyone can enjoy. There are wonderful nature walks and you can make all kinds of discoveries by following paths, animal tracks, or the clouds.

The nearest international airport is Geneva, and access to Megève is easy at only 75 kilometers.

Accommodations and meals

During our winter camp, we offer a private tailored service with Day Camper formula only without accommodations.

The camp starts every morning at 9.30 AM and finishes at 6 PM.

It is a formula for children on vacation in Megève with their parents.

To maintain an organization at a comfortable level, we deliberately limit capacity to 20 children. This allows us to create a multicultural dynamic and to look after the wellbeing of each of our participants.

MEALS
Children have their meals in a restaurant on the ski slopes at lunchtime and in the evening, in the restaurant of the hotel. The menus are prepared by the hotel's chef who takes into account a balanced diet and the tastes of the children.
We can organize special menus (vegetarian, religious requirement, gluten-free etc.). We just need to be advised in advance.
