

Zahra Bespoke Tours

Welcome to the hidden soul of Avignon, a city where centuries whisper to sun-drenched stones, and the flavors of Provence unfold like love letters to your senses.

Step into an intimate journey through the shadows and sunlight of a city steeped in secrets, where, beneath the first standing arch of the Pont Saint-Bénézet, the forgotten coat of arms of the Marquis de Sade still watches over the Rhône.

Savor the legends of forbidden love, papal intrigues, rebellious poets, and the quiet magic woven into daily Provençal life.

Taste far more than nougat, calisson, olive oil, tapenade, or wine, discover the subtle and the sublime, this uniquely French allure, that essence of elegance that makes French women... so sexy, confident, yet never arrogant. Uncover with me these charms, heightened by sunlight, lavender, and just a hint of audacity.

Three unique experiences await you!
