A RENAISSANCE WALK IN ONE OF CHAMONIX'S MOST PRISTINE ENVIRONNEMENTS

Through contact with the healing powers of nature, now is an opportunity for reflection on how to evolve in our world's fragile environments. Originally designed for nature photographers, Teresa Kaufman hosts this walk for all visitors who can appreciate the music of bird songs, the discovery of rare flowers and the subtle odours of fields of wild grass while drawing energy from one of the valley's most enchanting natural environments. In order to respect the safe measures of social distancing, this Discovery and Photo Walk will be proposed on a private One to One basis for individual solo travelers, couples or very small families. It will take place in the late afternoon in an isolated neighborhood on the territory of Les Houches. The unique environment for this walk is especially healing due to its magnetic - and positive energy. The consoling and warm late-afternoon light and soothing silence adds to the sense of well-being.

Duration : approximately 3 hours.

Price : 60 € per person with a minimum of 2 persons. 120€ for one person.

A CHOICE OF DISCOVERY WALKS

THE RENAISSANCE WALK – COUPEAU, LES HOUCHES. EXPERIENCE EMPOWERMENT IN NATURE

Perhaps the most impressive view of the Mont Blanc range is to be seen from this alpine plateau. Photographers come for the golden light and rare alpine flowers. This walk is also known for its magnetic energy, creating a sense of empowerment.

CHAMONIX – THE CLASSIC TOWN & COUNTRY WALK – A PLEASURE AT ALL SEASONS

Discover downtown Chamonix followed by hill-top neighborhood to enjoy the view, the sun, some of the most beautiful gardens along with a fresh-water spring. We'll follow the season as the flowers and vegetables grow, bloom and change colours.

SERVOZ – A VILLAGE OF FARMS, ORCHARDS, ARTISTS AND A BAROQUE CHURCH

Farmers, artists and top-notch chefs have chosen to live and express their talent here. Servoz is famous for its limestone fountains, bread ovens, rural architecture and red cows. Perhaps Chamonix valley's best kept secret.

TRÉLECHAMPS – A MOUNTAIN HAMLET NESTLED AMONGST FORESTS AND GLACIERS

A story-book setting on an isolated plateau surrounded by glaciers : alpine chalets, a traditional mountain hut and remarkable gardens. We'll cross paths with the hikers and bikers on the famous Mont Blanc Trail on their way to food and drink at the hut.

VALLORCINE – A UNIQUE WALSER VILLAGE – MOUNTAIN LIFE-STYLE & OLD-WORLD TRADITIONS

At the northern tip of the valley lies one of the most unique villages in the French Alps. We'll follow a grass-covered path through traditional Walser hamlets amongst fields of wild flowers where black heritage cows graze. The local production of cheese and fruit jam are the pride and joy of this rugged mountain community. With a stop at Guy's café, a Vallorcine *must*.

CHAROUSSE, LES HOUCHES – A STEP BACK IN TIME TO A 19th CENTURY ALPINE PASTURE

This well-hidden spot is suspended in time and carefully maintained by its inhabitants. We'll get there by walking up an old cow path through the forest before arriving to the original chalets, dominated by the majestic Mont Blanc range.

SWITZERLAND – THE CHARM OF FINHAUT AND THE WONDER OF GIETROZ AND IT'S SHEPHERD

Just 10 minutes from the border yet, what seems like light years away. Nostalgia and Swiss rurality paint the picture as we discover two unique villages ; Finhaut with its Victorienne charm and Gietroz where a gentleman-shepherd continues to bring his tiny herd of goats to pasture.
