

Hello  
I am Irene the mermaid.  
I live off the coast of Sainte-Maxime  
and I am a new friend  
of LULU THE TURTLE  
and LEON THE FISH.

# Treasure hunt

A long time ago, during the Roaring Twenties, I discovered the town of Sainte-Maxime. As I have the great privilege to walk in order to find land,

I then specifically chose this wonderful area to stroll secretly.

One spring day when I thought I was hiding, a young sailor was bewitched by my song. He spent all his life trying to find me and had a palace built to honor me.

Since then, I pay particular attention to hide well.

Along your path, you will discover hints that will lead you to a magic word that will let you know where

I rather hide when the pirates will be back, pay attention, it is a secret...

The 5 letters will make a word and Irene the Mermaid wants to pass on to you. Then you will get a well-earned reward.

Good luck !!

Move 35 steps away from the **Tourist Office** entrance. You will reach the statue of a poet that bears the name of this wind that blows in southern France. Look at the direction of his eyes. Take the pedestrian passages and head for the sea! Find the heart-shaped sculpture.  
**TOP START!**

Walk straight to **Promenade Simon-Lorière** towards Sainte Maxime Bridge  
« **Pont du Préconil** » At the 7<sup>th</sup> Parasol Pine tree, check on your right, on the opposite side of the road, there is a yellow building. It was built in 1929 by a young sailor of mine. He called it « **The Mermaids Palace** ».

Notice the Letter relating to the letter you found.  
**HINT N°1**

It is time to backtrack to the **Tourist Office**. Take the pedestrian crossing across, through **Place Louis Blanc**. On the right is a small flowery plaza overlooked by a very tall tree. Find the name of that tree and write down the third letter. **HINT N°2**

**Rue des Sarrasins** is the path you will use until it becomes **Place des Sarrasins** then you will find a magnificent Olive tree. Take a step forward and find the yellow written sign in Provençal. It is an ancient language that is used still by mermaids to bewitch **HINT N°3**

Head on straight through and make a left **rue Siméon Fabre** followed by **rue du Marché** that will lead you to **place du Marché**. What a lovely fountain just as her cousins

the fish! Irene couldn't help but to stop to get freshened up.  
Now, keep strolling in **rue Hoche** and you will see to your right, a tunnel to go through to get closer to the Sea and the magic word!  
Follow the third street to your left, **rue de Lorraine**. At the end of the street, find, this time, an even more impressive Olive tree than the previous one. Find a yellow sign and pick the fourth letter of the first word. What is the letter before that letter in the alphabet? Answer the question so you can get the fourth letter. **HINT N°4**

Follow the street that goes down to the right, you will spot the tower that was built in 1520 to insure the safety of its people in Sainte-Maxime. Look at him! Find his name, it's written on a sign... Small clue, it looks like a geometric shape. Note his last letter. **HINT N°5**

**CONGRATULATIONS!!!  
YOU HAVE FOUND THE MAGIC  
WORD!!!**

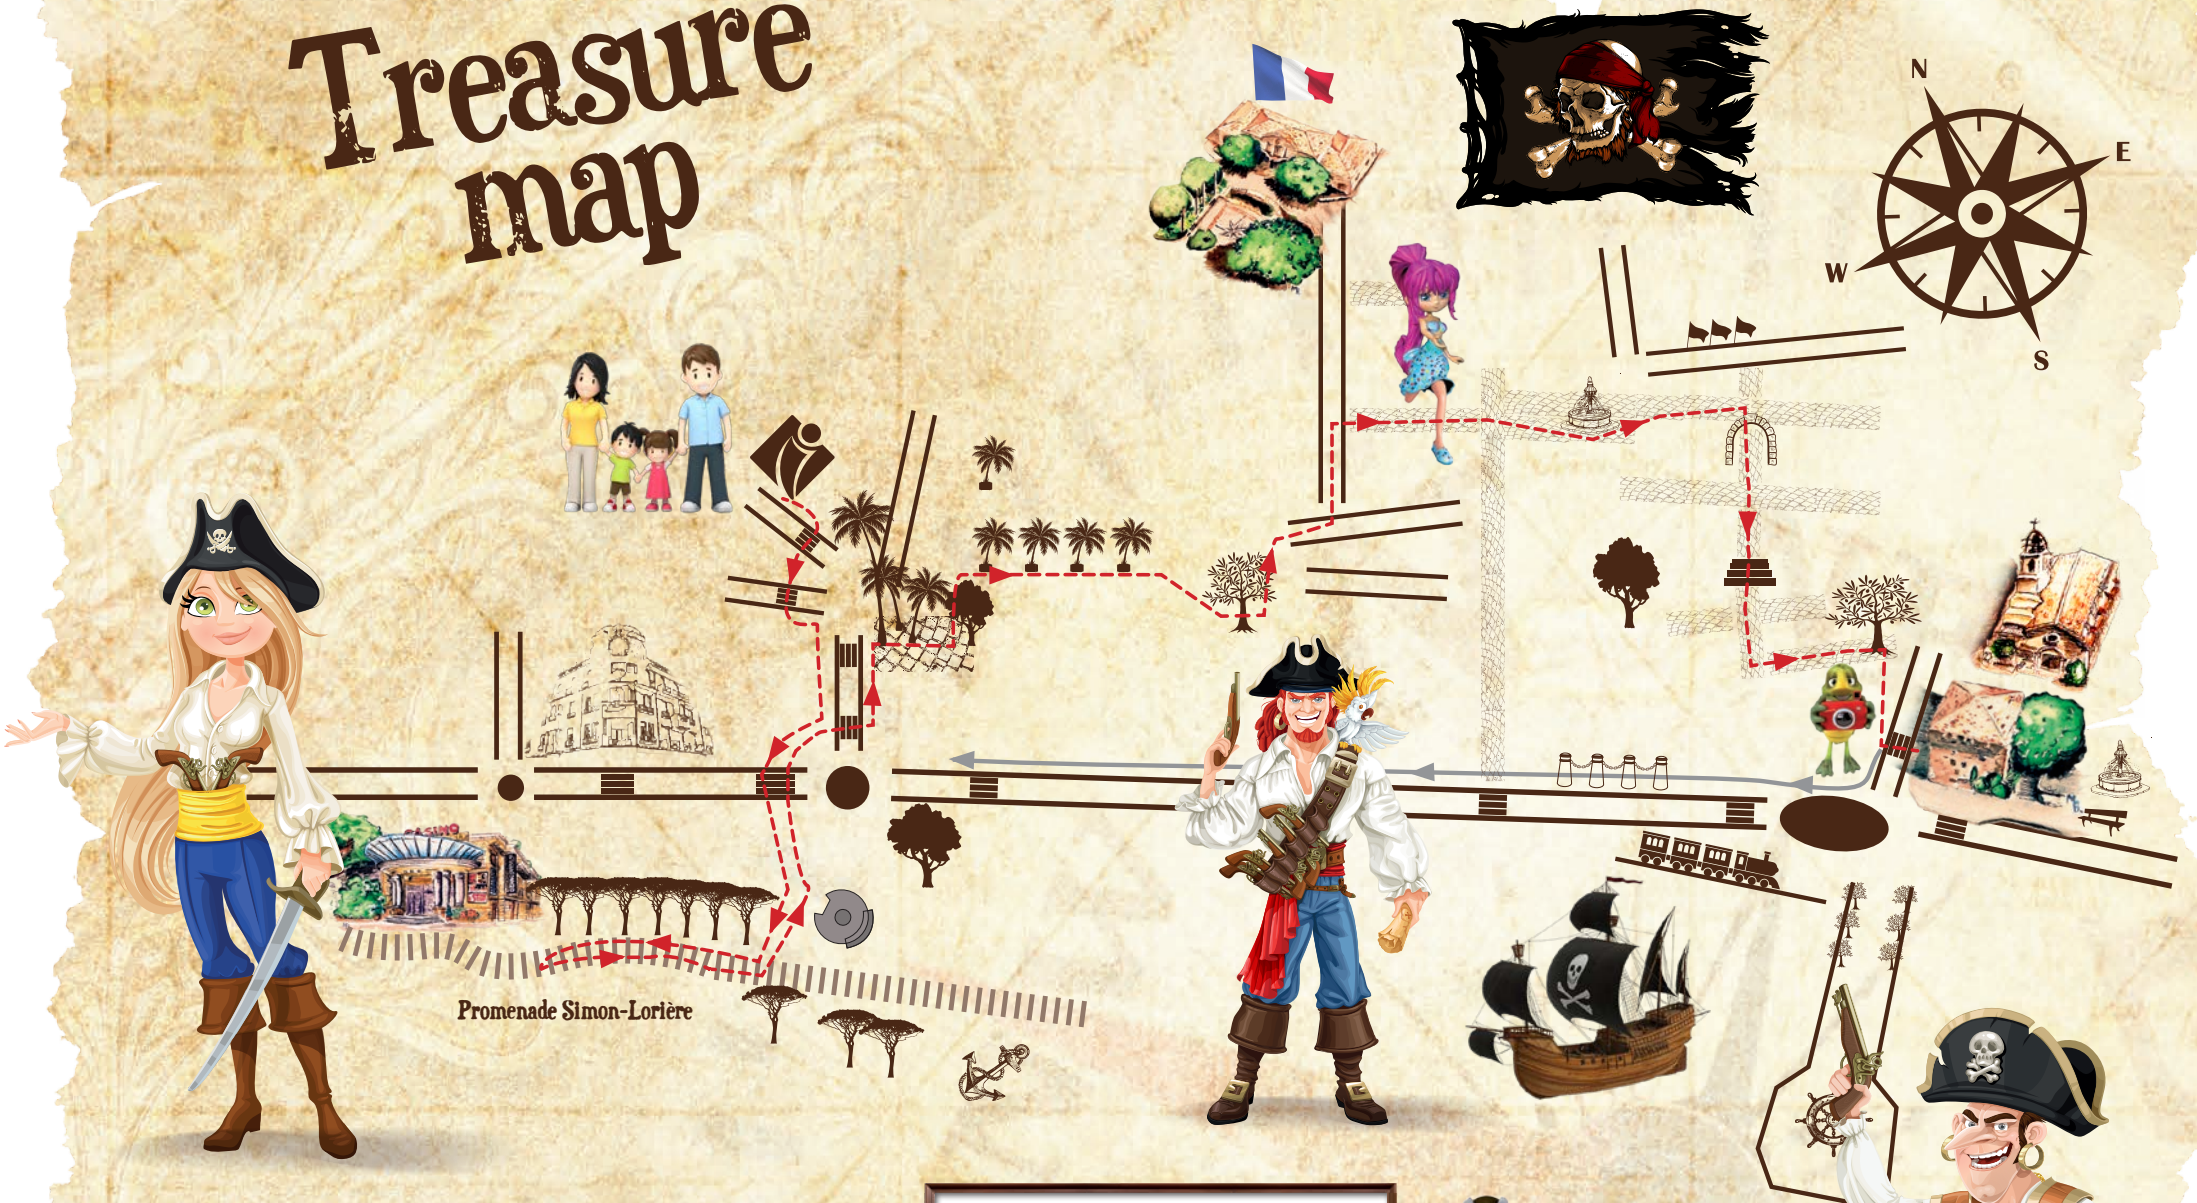

**LET'S MEET AT

**COME TO THE TOURIST OFFICE
